Recognition Builds Community

Enhancing the library as a community center is a key goal of the expansion of the Milton Public Library. Your gift of a named element of the library furthers this goal both literally and symbolically by allowing us to prominently display the names of community members who have contributed to the effort to renovate the library.

The following is a list of named recognition opportunities that the Library Trustees have identified as being particularly noteworthy. The Trustees will also work creatively with donors to accommodate their interests. Donations may be made personally or in honor or memory of particular individuals.
